Mitchell Ellis

mitchellis2716@gmail.com 952-228-7607 Victoria, MN

Computer science graduate with a minor in Computer Engineering with experience in software development across the full stack, and strong foundations in both software engineering and computer architecture. Looking for an entry level role where I can grow my skills and contribute using experience from projects and coursework I have completed.

EDUCATION

University of Minnesota Duluth - Bachelor of Arts, Computer Science
Aug. 2023 - May. 2026 *Duluth, MN*

Relevant Coursework

Computer Science I and II; Software Analysis and Design; Operating Systems; Digital Logic; Computer Architecture; Software Engineering; Computer Organization and Architecture; Calculus I and II; Discrete Structures of Mathematics

PROJECTS

Workout Application - Scrum developer

- Built a multi-feature mobile workout app using Dart and Flutter, including workout logging, exercise tracking, and user progress views
- Collaborated in an Agile/Scrum team across full development lifecycle including sprint planning, daily standups, sprint reviews, etc.
- Debugged and implemented new features in response to sprint feedback, maintaining code quality across iterations
- Used GitHub for version control, including branch management and resolving merge conflicts

WORK EXPERIENCE

Best Buy - Store Associate
Apr. 2021 - Jul. 2022

- Provided technical support and troubleshooting assistance for a wide range of consumer electronics.
- Guided customers through product features and purchasing decisions, contributing to high customer satisfaction.
- Collaborated with team members to improve service and support efficiency.

Kwik Trip - Cashier
May. 2023 - Present

- Delivered consistent, friendly service in a fast paced retail environment
- Coordinated with team members to keep operations running smoothly during peak hours
